BRITISH WOUNDED PASS THROUGH FRENCH LINE

During the fiercest of the fighting in a battle in France British wounded on the way to hospitals were carried past the lines of the French. As he passes the trenches filled with machine guns in action this wounded Tommy, interested, has raised his head to watch his French cousins help hold the Hun. Away at the rear in the woods cavalry horses can be seen corralled while their riders wait the command to advance.

SAVE PEACH STONES FOR UNCLE SAM

The United States government is in great need of peach stones, plum stones, prune stones, etc. These stones will be used to make gas preventatives. Save these until you have a good supply, then put in strong bags and ship to Conservation and Reclamation Office, Depot Quartermaster, Albers Dock No. 1, Portland, Oregon. If you haven't 100 pounds leave what you have with Percy Harrison at the courthouse as he has kindly consented to attend to the matter for Uncle Sam. Those of our readers who will find it inconvenient to deliver the stones at the courthouse, should make their shipments from the nearest railroad office. The Mist in indebted to Mrs. E. C. Standwood for supplying the above information.

Lunches for Refugees in Paris
To be ready to feed refugees in Paris, the American Red Cross workers packed individual meals in boxes ready to hand over to the hungry, homeless the moment they arrived. The first of these were used to feed some 450 people who arrived in Paris on canal boats at midnight.

Y. W. C. A. IN FRANCE

The increased number of American women going overseas with relief organizations has made it necessary for the American Y. W. C. A. to take over a large house, one block from Petrograd, the Y. W. C. A. hostess house in Paris, for additional housing space.

Groups of forty and fifty Red Cross nurses, canteen and social workers have had to be turned away from the hotel almost daily for lack of space during the past two months.

Hotel Petrograd, which was opened in December for the purpose of caring for these American women while they were awaiting orders to their posts, has accommodations for 200 women, and has become the American center in Paris. The new annex will be just a rooming house. There will also be a tea-room.

French people are no longer allowed to get any meal, save tea, at the Petrograd as the dining room is not large enough to accommodate all of the American men and women who throng there for American cooked meals. Frequently the line extends from the dining room door through the lobby of the hotel.

Concerts and lectures by famous musicians, authors and writers of the allied countries are daily events at the Petrograd. Miss Mary George White of Baltimore is director of the hotel.

RED CROSS PROGRESS IN PACIFIC NORTHWEST

Baseball Proceeds go to Red Cross
The entire net profit in the treasury of the Missoula, Mont., city baseball league, amounting to \$400, was turned over to the Missoula chapter of the Red Cross. This was the money taken in during the past season.

Glasgow Sheep Men Give Wool
Thanks to a donation of 300 pounds of raw wool made by sheep men of Glasgow, Mont., the Valley county Red Cross chapter will be enabled to continue with its knitting of socks and sweaters for the soldiers. The raw wool has been shipped to the Litchfield woolen mills in Minnesota to be made into yarn for the workers and as soon as it is received it will be distributed among the members.

Can Fruit for Soldiers
Accepting the gracious offer of Harry Usher to donate as many peaches to the Red Cross as the ladies cared to can a number of the Tonasket, Wash., Red Cross ladies motored out to the orchard recently and spent the day putting up the fruit, which will be shipped to Camp Lewis as a little surprise for the soldiers. Mr. Usher also donated the use of his team and wagon to haul the fruit in from the orchard as well as the use of his kitchen and preserving outfit.

Whitehouse Wool Sells for \$205
Governor Stewart of Montana has notified the National Red Cross that the Whitehouse wool sold in Montana through that organization has netted \$265.47. Gillman paid the most for the wool, with Boulder a close second.

We have nearly two million men in France. Every subscriber to the Liberty Loan helped send them there.

People Speak Well of Chamberlain's Tablets

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont., "If you are troubled with indigestion or constipation give them a trial. They will do you good."

CONVERSION OF LIBERTY BONDS

The privilege of conversion which arose in consequence of the issue of 4 per cent bonds of the third Liberty loan will expire on November 9 next and under existing law cannot be extended or renewed. Delay in exercising the privilege will result in overburdening the banking institutions of the country and the treasury department by making it necessary to handle all conversions at the last moment and may result in many cases in the loss of the privilege of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them for registered bonds in order to protect themselves against the risk of loss, theft and destruction of their bonds.

The banks throughout the country, as a matter of patriotic service, will doubtless all assist bondholders in converting and registering their bonds.

RECORD YEAR FOR CANNING INDICATED

Reports from manufacturers of canning supplies who have conformed to recommendations of the United States department of agriculture in the making of equipment indicate that the interest in home canning is increasing rapidly. There is a widespread demand for more equipment that will save labor and time in canning. It is estimated that there has been during the year a 50 per cent increase in the number of firms manufacturing home canning supplies, an average increase of 25 per cent in the quantity of equipment sold, and an increase of 300 per cent in the demand for rubbers of standard quality. Some of the department's canning instructors have been published by outside parties in 10 different languages and more than 100 business concerns have reprinted the directions for free distribution to their employees and customers.

HOUSEHOLD HINTS

To keep cookies and cake moist, put a slice or two of wheat bread in the box with your cookies and cake.

Use gasoline to clean your gas range. It will remove all the grease and all the dirt. Be sure your range is cold before using.

To clean men's clothes, take yellow soap, make a good lather, use a brush to rub the soiled places thoroughly and then rinse off with clean water.

Home-made bread often becomes sour or moldy. One reason for this is that the bread was not absolutely cold when put into the bread box after its baking.

A piece of white blotter placed under the tablecloth where the flower vase stands in the center of the table will prevent any possible moisture from spoiling the surface of the table.

To make a cement which will be found handy in the kitchen, add a teaspoonful of glycerine to a gill of glue. This is particularly good for fastening paper, leather or wood to metal.

If you like just a flavor of orange or lemon in your tea keep the skins of one of these fruits in the sugar bowl or rub the loaf sugar over the peel of a lemon or orange just before serving.

After a whiskbroom has done duty as a clothing duster it can be used for a considerable length of time as a sink broom or the ends can be trimmed and it will do for dusting the corners of the upholstered furniture.

When logs of wood have been placed on an open fire and are partly burned, when the family is about to retire, stand the logs on end and put water over them. They will not endanger the house nor burn to waste.

All white leathers, excepting kid, are best cleaned with soap and water. Use a stiff nail brush and plenty of soap and water. After the shoe is scrubbed, rinse off the soap and put the shoes on stretcher and dry in the sun.

Instead of rubbing your fingers sore on the wristbands, etc., on washday try one of those small hand brushes. Lay the article to be washed upon the washboard and scrub with the brush. You will be surprised how easily the soiled portions can be cleansed by this method.

Call Answered Quickly
A telegraphic request asking for additional Red Cross workers at the Italian front received at 5 o'clock at Red Cross headquarters in Rome resulted in having five American Red Cross men on the train at 8 o'clock. With them they carried as personal baggage 2000 shirts, 20,000 cigarettes and 5000 packages of chocolate.

Good Faith in Chamberlain's
and Diarrhoea Remedy
"Chamberlain's Colic, Cholera and Diarrhoea Remedy was used by my father about a year ago when he had cholera. It relieved him immediately and by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Hams, Stanley, N. Y.
